The Charaideo district administration has initiated the process of land acquisition for the proposed upgradation of the Sonari–Moran road under the Asom Mala 3.0 scheme.

According to an official notification, the project will cover the stretch from Bhojo Railway Crossing to Jajali Panch Ali and is aimed at improving road connectivity and supporting regional development.

To facilitate the project, the District Level Land Purchase Committee has decided to acquire land from a number of villages under the Mahmora Revenue Circle. The villages identified for acquisition include Kakatibari Grant, Japidhara, Likson, Disang Kokh Habi, Burhagohainbari and Gor Kokh Habi, among others.

Officials said detailed information relating to plot (dag) numbers, patta numbers and other land particulars is available at the offices of the Mahmora Revenue Circle and the District Commissioner, Charaideo.

Landowners whose properties fall within the notified areas have been given the option to come forward voluntarily for land sale. They may also submit objections, if any, to the Chairman of the District Level Land Purchase Committee within one month from the date of issuance of the notification.

The road upgradation project is expected to enhance transportation infrastructure, improve connectivity between Sonari and Moran, and contribute to the socio-economic development of the region upon completion.
