An unidentified object hovering around the sky in upper Assam pulled no less spell of curiosity among lakhs of people on Wednesday evening.

Much to the utter surprise and curiosity, the comet like object was spotted in the sky in and around the Naharkatiya area at around 9 in the evening forcing the people to come out of their homes to watch the strange objects. But there was no conclusion even from the experts.

The same object struck the heavy attention of the people in Dibrugarh district on Tuesday night.

Meanwhile, ISRO officials in Shillong told Assam Times that they were not aware of such objects in the sky. But they said if it is spotted it might be drones.
