For the first time the dangerous dengue strikes the state with altogether 13 cases. The cases reported mostly from Guwahati and its surrounding areas. Nine cases were reported from Kamrup (metro) district and one from Kamrup (rural) district on Friday. Three other cases have been reported from International Hospitals in Guwahati. NVBDCP sources said that over 10 cases have been reported so far forcing the department to start fogging and awareness programme in the affected areas. The disease is caused by the biting of aedes mosquito, which breeds in stagnant water.
