The efficiency of the Hagrama Mahillary led model BTC is in question in [Tangla](#), the business and education hub of [Udalguri](#) district littered with potholes on the main thoroughfares of the town. The appearance of potholes has nullified the tall claims of the much talked about Model BTC. The foundation stone of the construction of the Interlinking Concrete Block Pavement Road from South Nalbari to Hospital Road which was laid on December 30 last year yet lies incomplete.

Local residents immensely suffer from the scattered potholes. Minor accidents are frequent especially during the monsoon with the potholes filled with rain water.

The road under Mudoibari constituency of BTC under EM Jagadish Sarkar has allotted lakhs to contractors but till date only sands have been used to resurface the potholes which is not sufficient.

Similar is the condition of the road from [Tangla](#) charali leading to the office of the Harisinga Revenue Circle Officer. A drizzle is enough to fill

up the potholes of the dilapidated road. Though local residents have raised their concern [over](#) the road, BTC authorities have turned a deaf ear to it all.

Again, the road used by school students passing through the [Tangla](#) Higher Secondary School and [Sankardeva](#) Sishu Niketan leading to [Tangla](#) Police Station and [Tangla](#) forest beat office is riddled with different sizes of potholes of varying depths. The condition aggravates every year during monsoon.

Residents of the town would find it convenient if the BTC Government under takes construction of the road in a time-bound manner.
