Indian economy is on robust growth trajectory, growing at around 8% for last five years. Manufacturing, Power, Metals and Automobiles are all growing. Global companies are capitalizing on this growth opportunity by expanding their presence in India. This is leading to competition & productivity challenges and automation of these processes holds the key to success. Automation industry is growing at approx 20 pct. Various Companies like Rockwell is making inroads into India. Rockwell is looking for automation professionals and Engineers from core industries to support their rapid growth plans
