Mobile telephone services throughout Raha have degraded from bad to worse resulting in untold suffering and hardship experienced by the mobile customers for no fault of theirs.

Though Bharat Sanchar Nigam Ltd (BSNL), Airtel, Aircel, Vodafone and Reliance are providing services at Raha besides other places of the state, but their service has only been annoying mobile customers of the Raha town for over a month.

It may be mentioned that in most of the places of the area, the network of any kind of service providers are still a distant dream. Although there are a good number of mobile towers in the area installed by the aforesaid mobile companies but in true sense, they have not been able to serve the purpose as mobile network is not accessible even within two km radius of any tower. The mobile customers of the area have demanded the authorities of the concerned companies to promote better network service at an earliest.
