

Smuggling fetches money for insurgents

Comments 0

AT News 28 July 2015 8993 views

North east insurgents have been resorting to illicit [trade](#) in drugs and fake currency to make money.

This was what Mukul Sahay said when the additional DGP was talking to reporters in Guwahati in the sidelines of a FICCI function on Tuesday.

Sahay said funds to these insurgents come mainly from the [smugglers](#) to ensure their safety and security.

He observed that funds, mostly, comes from tobacco, drugs and fake currency rackets in the entire north eastern region. He observed that illicit [trade](#) has yet to be accorded priority because of traditional crimes like insurgency and ethnic clash.

GUWAHATI, October 2, 2026 — A two-day People's Consultation on Agroecology & Climate Adaptation concluded here on Wednesday, bringing together more than 20 NGOs and civil society organisations from across Assam, besides farmers, women's groups, indigenous community representatives, environmentalists, academics and development practitioners.

Organised by Jorhat-based grassroots organisation North-East Affected Area Development Society (NEADS) at Hotel Skyline, the consultation focused on agroecology, biodiversity, sustainable food systems, climate risks, disaster preparedness, indigenous knowledge and community-led adaptation.

Technical sessions, panel discussions and community-level sharing examined climate vulnerability in Assam, flood management, locally led humanitarian response, water governance, indigenous seed conservation and sustainable livelihoods.

Participants also shared experiences of changing climate conditions, traditional farming, biodiversity conservation and the role of women and youth in building resilient communities.

NEADS Director Tirtha Prasad Saikia said climate solutions must involve communities and recognise the knowledge already held by Assam's farmers and indigenous communities.

“Our task is to recognise and strengthen this knowledge through science, policy and institutional support, and put communities at the centre of climate action.”

The consultation also discussed Government-NGO coordination and Joint Rapid Needs Assessment (JRNA) to strengthen disaster preparedness and response.

Participants proposed a **Civil Society Declaration on Agroecology & Climate Adaptation** and a policy brief to consolidate recommendations on climate-resilient livelihoods, biodiversity, indigenous seed systems, community-led adaptation and stronger collaboration among civil society, communities, researchers and government institutions.

The consultation concluded with a call for continued collective action towards farmer-led, biodiversity-rich and climate-resilient food systems in Assam.
