GOLAGHAT: [Event](#) after unstoppable poaching there has been steep rise in rhino population in [Kaziranga](#) if the just concluded census on the world heritage site is any indication.

According to the three days rhino census which concluded on Wednesday, [Kaziranga](#) is now an abode of 2413 one horn rhino population, 12 more than the figure [found](#) two years back.

The census started on March 25 with a huge team of 120 comprising forest department officials apart from a few [NGO](#) activities who divided the national parks in 36 parts for census by elephants and gypsies.

Notably, repeated poaching incidents have been posing a serious threat to the one horn population forcing the authorities to deploy drone to [deal](#) with the escalating [menace](#).
