Wild elephant poisoned to death in Udalguri

[Jayanta Kumar Das](#) · 19:08, 30 Jun 2016 · 12872 views · 1 min read

The carcass of a twelve years old wild elephant (Makhna) found (/taxonomy/term/1802) this morning on the bed of Samrang (/taxonomy/term/2529) river near India (/taxonomy/term/2367)-Bhutan international border. It has caused concern among nature loving people of the district. Eye (/taxonomy/term/1949) witnesses said the elephant could have been poisoned somewhere else the previous night. Frequent deaths of wild elephants have now been a serious concern in the district. Udalguri (/taxonomy/term/113) District Journalists (/taxonomy/term/2506) Union and Green Society, Udalguri (/taxonomy/term/113) expressed concern at the incident and request forest department to take appropriate action.
